CONSENT TO TREATMENT AND CLINICAL ASSESSMENT SERVICES

This is to certify that I give permission to Karri Lusk, Psy.D., Seán G. Connolly, Ph.D., or Sandy Zamora, LPC-S at Algos Behavioral Health Services, Inc. to provide psychological and behavioral health services for myself and/or child(ren), or for an adult child for whom I am the legal guardian.

I have reviewed the **Statement of Office Policies for Clinical Practice** and the specific assessment and/or treatment procedures have been explained to me.

Service:

___ Psychological Evaluation
___ Psychoeducational Evaluation
___ Neuropsychological Evaluation
___ Behavioral Health Assessment
___ Biofeedback Therapy
___ Couple Psychotherapy
___ Group Psychotherapy
___ Family Psychotherapy
___ Individual Psychotherapy
___Group Behavior and Health Intervention
___ Other: ____

The specific treatment has been described in the written **Statement of Office Policies for Clinical Practice** and/or explained by the clinician. If applicable, alternatives to treatment have been explained to me. Due to the complex nature of psychotherapy and other behavioral health services, including discussing past and present emotional pain and the stresses in life, it is quite common for persons entering this type of treatment to have periods of time when they experience their feelings as more intense, and perceive their condition as possibly worse. This should be discussed as part of the treatment, and is usually temporary. Please note that it is impossible to guarantee any specific results regarding psychological treatment. However, every effort will be made to achieve the best possible results for you. Maximum benefits occur with regular attendance and your active emotional investment in the process.

The issues of confidentiality have been reviewed, and I have been assured that all communications between a professional and a client are held in strict confidence. However, I also understand that there are exceptions to those laws and regulations. I understand it is the clinician's legal responsibility to disclose certain issues for my protection and that of others, and these situations have been clarified to me. Every reasonable effort will be made to resolve issues through discussion and planning within the clinical setting, and I will be notified of any anticipated compromise of the client-therapist relationship.

I have the right to terminate the therapeutic relationship at any time that I desire, without fault, and I have the right to seek and obtain a second opinion on the procedures and/or treatment process.

I understand that I am fully financially responsible for my treatment provided by the clinician, and for any balance that is not covered by my insurance company. A billing service may be used for the

collection of insurance reimbursement and co-pay fees. Psychologists have the right to seek the services of a collection agency to obtain payment of past due balances.

My signature certifies that I have read and understand all the information provided by Algos Behavioral Health Services Inc., about the clinicians, the treatment to be provided, and the expense to be incurred. I hereby voluntarily give my informed consent for treatment. A copy of this authorization shall be considered valid. I understand that I will be informed of any changes concerning what is in this document and my consent will be obtained regarding these changes.

You are assured that the services will be provided in a professional manner, consistent with the rules and regulations of the Texas State Board of Examiners of Psychologists and the ethical principles of the American Psychological Association. Every effort will be made to provide services in a caring, supportive and trustworthy environment.

In addition to the specified procedure checked above, the initial goals of treatment will be established after the first or second session.

My signature certifies that I have been provided the opportunity to read/review the following relevant documents:

- **Notice of Privacy Practices**
- **Statement of Office Policies for Clinical Practice: Psychotherapy, Psychological or Neuropsychological Testing and Behavioral Health Assessments**

My signature certifies that I voluntarily give my informed consent to the clinical services offered by this psychological practice.
